OBJECTIVES

Highly motivated IT professional completing a BS in Information Technology, focusing on AI-native software engineering and application development. Experienced in building AI-powered solutions, utilizing large language models, and developing intelligent systems. A quick learner who thrives on emerging technologies, works well independently or in teams, and is always ready for increased responsibility.

EXPERIENCE

ANTZ INSURANCE AGENCY AND SERVICES INC.

Feb 2026 – April 2026

IT Intern

- Modernized the legacy web app by engineering a new React/Vite frontend, referencing the original system to ensure strict feature parity while improving load times.
- Managed backend functionalities and MySQL database to securely handle and process user uploads, including client data, documents, quotations, inquiries, and loan submissions.
- Converted corporate's web-based app into native Android and iOS mobile applications using Capacitor, successfully integrating hardware permissions (camera and location) and utilizing Firebase Cloud Messaging for push notifications.
- Initiated and optimized corporate cloud storage costs by managing Google Cloud Platform (GCP) buckets.

TECHNICAL SKILLS

Programming Languages: Python, Javascript/TypeScript, PHP, Java, C# (.NET), HTML, CSS

Databases: MySQL, PostgreSQL, ChromaDB

Full-Stack Development: FastAPI, LangChain, ReactJs, NodeJs, OpenAI Chat Completions API, Anthropic Messages API, Scikit-learn, Natural Language Processing, Pandas, NumPy, Docker, Git

Cloud Platforms: Google Cloud Platform, Digital Ocean, Amazon Web Services

EDUCATION

Trinity University of Asia

June 2026

Bachelor of Science in Information Technology specialized in Software Engineering

Pamantasan ng Lungsod ng Maynila

May 2021

Bachelor of Science in Computer Science

UST-Angelicum College

May 2018

Science, Technology, Engineering and Mathematics

ACADEMIC AND PERSONAL PROJECTS

TRINITY UNIVERSITY OF ASIA ELECTRONIC LIBRARY SYSTEM (Final-year Capstone) | *PHP, HTML, CSS, JavaScript, MySQL, Python (Scikit-learn, sentence-transformers), Docker*

- Led end-to-end design and implementation of a web-based university library system with separate student and librarian portals and full circulation workflows (borrow, reserve, penalties, reading requests).
- Implemented a hybrid content-based recommendation system combining TF-IDF (SVD-reduced), SBERT embeddings, and KNN (cosine similarity) for similar-books and personalized book recommendations.

- Delivered RBAC, RFID attendance tracking, bulk CSV catalog/user import, and an analytics dashboard for circulation reporting.

SMILE SYNC with DENTI AI | *LangChain, Ollama, FastAPI, React/Vite, Resend Email API, Google Calendar API,*

- Developed an AI-powered dental booking system using LangChain AI agent, FastAPI, React, and Ollama for LLM inference.
- Engineered end-to-end appointment booking workflow with natural-language date parsing, real-time slot availability, OTP email verification, and automatic Google Calendar synchronization.

TUA HANDBOOK RAG CHATBOT | *Ollama, ChromaDB, BM25, RRF, FastAPI, HTML, CSS, JavaScript*

- Developed a hybrid RAG pipeline combining ChromaDB semantic search and BM25 lexical retrieval, fused via Reciprocal Rank Fusion for higher-precision answers.
- Delivered using FastAPI chat API and implemented context-locked prompting with few-shot guardrails.

CAREERFORGE AI | *LangChain, Ollama, Groq TTS/STT, JSearch API, FastAPI, React/Vite*

<https://career-forge.dev>

- Built a full-stack AI career prep platform using FastAPI and React/Vite that unifies job search, resume tailoring and interview practice into a single workflow.
- Implemented LLM-driven resume tailoring with ATS scoring and keyword matching and job relevance ranking from live listings to prioritize best-fit roles.
- Delivered real-time AI-powered voice mock interviews through STT/TTS using Groq for inference, multi-round evaluation, and downloadable session summaries.

CERTIFICATIONS

AI ENGINEER FOR DEVELOPERS ASSOCIATE

2026-2028

DataCamp

<https://www.datacamp.com/certificate/AIEDA0017925867078>

AWS AI PRACTITIONER CHALLENGE

2026

Udacity
